

All Natural, Locally Farm Raised

Oakland Green's Black Angus Beef

2009 Price List

We have been raising Black Angus cattle at our family farm in Loudoun County, Virginia, for more than 20 years. Our animals enjoy wide-open spaces with plenty of access to fresh pasture and clean water. They are finished on farm on locally grown grain for approximately 75 days so they never see the confines of a feedlot. We never inject our animals with growth hormones or steroids and use antibiotics only when necessary (almost never). We are pleased to offer frozen individual cuts of our beef direct to consumers.

Cut	\$/lb	Availability
